

21 - 23 May 2019

International Congress Center
Dresden, Germany

Organised by **FISITA** 

Europe's braking technology
conference & exhibition

Special Offer until 30 April 2019

Exclusive 3 for 2 rate for China-SAE members

We would like to offer all China-SAE members the opportunity to purchase 3 passes to EuroBrake 2019 for the price of 2!

You are invited to the eighth annual EuroBrake conference and exhibition - the world's largest event in braking technology. EuroBrake plays an important role within the global braking technology and friction industry so our high-quality Technical Programme is crucial to those involved in this vital area of engineering.

EuroBrake 2019 offers a wonderful agenda, featuring sessions on brake control systems, the environment and advanced disc coatings, while we dedicate a Panel Discussion on the topic of lifelong brakes. Following a successful introduction last year, a selection of sessions are specifically dedicated to rail braking technology.

Our international exhibition is almost full and will feature 100 organisations, who represent the entire value chain from leading industry players to new entrants – it's a great opportunity to meet new suppliers.

To take advantage of this offer, please email the FISITA HQ team by **30 April 2019** at sales@fisita.com
